

FLUX FIRE POWDER PRESPRAY

Information Sheet

High pH Carpet Prespray

Flux Fire Powder is a high pH carpet prespray designed to dissolve grease and oils within minutes. The combination of alkalinity, non-ionic surfactants, and d'limonene make it a grease buster for polyester carpets of all types. The quality of the alkaline-builders enable the powder to be mixed easily with water. The addition of a lemon fragrance to the orange fragrance of d'limonene result in a wonderful citrus fragrance. The Flux Fire Powder is packaged and priced for cleaners who want to save money and time with bulk purchases.

DIRECTIONS

PUMP OR ELECTRIC SPRAYERS:

Dilute 2 ounces (1 scoop) of Flux Fire Powder with Citrus per gallon of hot water (1:64)

For excessively soiled areas, use 3 ounces (1.5 scoops) per gallon of hot water (1:42)

HYDRO-FORCE INJECTION SPRAYER:

Dilute 16 ounces (8 scoops) of Flux Fire Powder with Citrus per Hydro-Force 5 quart container and fill with warm water. Use with standard 1 to 8 metering tip.

APPLICATION:

Spray on traffic areas until evenly damp. Allow to dwell for 5-15 minutes. Do not allow to dry before extraction. Extract as usual.
